GVO  
GMO

|                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Verkäuferbestätigung gemäß der Verordnungen (EG) Nr. 1829/2003 und Nr. 1830/2003<br>Vendor declaration according to the regulations (EG) No. 1829/2003 and No. 1830/2003                                                                                                                                                                                                                                                              |
| Der Unterzeichner bestätigt, dass dieses Erzeugnis weder „aus“ noch „durch“ GVO im Sinne der Verordnungen (EG) Nr. 1829/2003 und Nr. 1830/2003 hergestellt wurde, und keine Informationen vorliegen, die darauf schließen lassen, dass diese Erklärung falsch ist.                                                                                                                                                                    |
| Es besteht immer die Möglichkeit einer Kreuzkontamination und einer Produktübertragung während des komplexen Warenflusses der Lebensmittelherstellung (Ernte, Transport, Lagerung außerhalb Einflussbereich). Die völlige Abwesenheit einer unbeabsichtigten Kontamination der Produkte mit GVO, z.B. im Sinne des „ohne Gentechnik“-Logos (nach EGGenTDurchfG), ist deshalb nicht abschließend zu garantieren.                       |
| The subscriber verifies that this product is neither produced “off” nor “through” GMO in the means of the regulations (EG) No. 1829/2003 and No. 1830/2003, and that there is no evidenvce which could imply that this declaration is incorrect.                                                                                                                                                                                      |
| There is always the possibility of a cross contamination and product transference within the complex flow of goods during the food production (harvest, transport, off-site storage or other incidents beyond our sphere of influence). An exhaustive debarment of an unintended GMO contamination within natural goods, especially for the purpose of the label “ohne Gentechnik” (EGGenTDurchfG), cannot be guaranteed irrevocably. |

|                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Die Ware entspricht dem Lebensmittel- und Futtermittel-Gesetzbuch (LFGB), den Anforderungen der WHO und allen gesetzlichen Bestimmungen Deutschlands und der EU.                        |
| Wir bestätigen, dass die oben genannte Ware zum menschlichen Verzehr geeignet ist.                                                                                                      |
| Die SchapfenMühle GmbH & Co. KG ist nach IFS Food zertifiziert.                                                                                                                         |
| The product complies with the requirements of the World Health Organisation (WHO) and all other legal requirements valid in the Federal Republic of Germany and the European Community. |
| We confirm that the product at hand is fit for the human consumption.                                                                                                                   |
| The SchapfenMühle GmbH & Co. KG is IFS Food accredited.                                                                                                                                 |
